Project Overview

The platform will offer school programs from **1st grade to 12th grade** (and expand to **college-level courses** in the second year). It will have two main sections:

1. **Student Dashboard** – Access to courses, exercises, progress tracking, etc.
2. **Admin Dashboard** – User management, analytics on student activity, and regional insights.
3. **Landing Page**

🎨 What I Need

- A clean, modern, and user-friendly UI/UX.
- Wireframes + high-fidelity designs (Figma preferred).
- Responsive design (desktop & mobile).

Landing Page

Inspired by https://www.kartable.fr/, here's the detailed structure of your landing page that will lead to the login:

1. **Header**
   - Logo and site name (top left)
   - Minimalist navigation menu (Home, Our Offers, About, Blog)
   - "Log in" and "Sign up" buttons (top right)
2. **Hero Section**
   - Strong headline: "Tutoring that adapts to your child"
   - Subtitle: "From 1st grade to 12th grade, courses and exercises to progress at their own pace"
   - Main call-to-action button: "Start now"
   - Attractive visual: smiling student working on tablet/computer
   - Mention "First month for $1" (attractive commercial offer)
3. **Benefits Section**
   - 3-4 key benefits in icon + short text format:
     - "All official curricula"
     - "24/7 AI assistance available"
     - "Corrected and explained exercises"
     - "Weekly progress tracking"
4. **Available Levels Section**
   - Visual representation of different grade levels
   - Clear segmentation: Elementary, Middle School, High School
   - Option to click to see a preview of content by level
5. **Testimonials Section**
   - 2-3 short testimonials from students/parents
   - Photos and names (real or fictional)
   - Satisfaction ratings/stars
6. **Subscription Section**
   - Presentation of the single offer at $50/month
   - List of included benefits
   - Highlighting "No commitment"
   - "Subscribe now" button
7. **Demonstration Section**
   - Preview of the student interface
   - Brief presentation of the AI assistant
   - "Try free for 7 days" link
8. **Simplified FAQ**
   - 4-5 essential frequently asked questions
   - Concise answers
   - Link to complete FAQ

9. **Footer**
    ○ Legal links (Terms of Use, Privacy Policy)
    ○ Contact (email, form)
    ○ Social media presence
    ○ Legal notices

Admin Space (Back Office) - Unique Access

1. Login Page

- Secure authentication form (username/password)
- Google bouton connexion

2. Main Dashboard

- **Global Student Statistics**
    ○ Total number of users
    ○ Distribution by grade level (graph/chart)
- **Geographic Distribution**
    ○ Interactive map of France with student density by region/city
    ○ Table of top 10 cities with the most students
    ○ Filter by department/region
- **Usage Trends**
    ○ Temporal access statistics (most active days/hours)
    ○ Ranking of most viewed subjects and courses
    ○ List of students inactive for X days
    ○ Week-by-week usage comparison
- **Number of Active Subscriptions**
- **Monthly Revenue**

3. Student Management

- Dashboard with complete list of students
- Advanced filters (by level, city, activity, registration date)
- Search function by name/first name/email
- **Detailed Student Profile**
  - Personal information (last name, first name, age, grade level, grade school)
  - Contact details (email, address, phone)
  - Login history
  - Overall and subject-specific progress
  - Exercise and assessment results
- "Send weekly report" button
- Data export option (CSV/Excel)

4. Educational Content Management

- Interface organized by grade level (1st grade to 12th grade)
- Subcategories by subject
- **Content Editor**
  - Creation/modification of courses
  - Media integration (images, videos, audio)
  - Interactive exercise creation system
  - Answer key management
- Educational resource library
- Preview before publishing

5. Payment Tracking

- Summary table of active subscriptions
- List of customers with current month payment status (paid/unpaid)
- Simple filter to view only active or inactive subscriptions
- Visualization of total monthly revenue
- Direct link to Stripe dashboard for in-depth management if necessary

Student Portal Pages

1. **Login Page**
   - Login form (username/password)
   - "Remember me" option
   - Password recovery link
2. **Personalized Student Dashboard**
   - Overall progress bar
   - Quick access to recently viewed courses
   - Direct access to subjects (by grade level)
3. **Grade Level Selection**
   - Selection interface by school year (1st grade to 12th grade)
   - Option to change level
4. **Subject Catalog**
   - List of available subjects according to selected level
   - Visual indication of progress by subject
   - Access to recently viewed courses
5. **Course Page by Subject**
   - Structure organized by chapters and sub-chapters
   - Course content with text and illustrations
   - Navigation buttons (previous/next)
   - Access to associated exercises
   - AI assistance button always visible
6. **Exercise Area**
   - Exercises classified by difficulty
   - Automatic answer and correction system
   - Display of solutions after answering
   - AI assistance button for contextual help
7. **Simplified AI Assistant**
   - Help button visible on all pages
   - Simple chat for asking questions
   - Image/photo upload option
   - No conversation history (single session)
8. **Review Space**
   - Review cards by theme
   - Quick quizzes
   - Chapter tests
9. **Basic User Profile**
   - Personal information and parent email
   - Current grade level
   - Subscription status
10. **Support/Contact**
    - Simple form to contact the administrator

- Basic FAQ
